## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 16 July 2007 has been entered.

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: No prior art has been found or presented that either teaches or fairly suggests the production of an encapsulant fluid comprising a mixture of a diene-containing compound and a dienophilic compound, wherein at least one of the diene-containing and the dienophilic compounds is protected so that the compounds do not substantially react with each other at room temperature, and the diene-containing and the dienophilic compounds are capable of undergoing a reversible Diels-Alder polymerization reaction at a polymerization temperature above room temperature to form a solid debondable polymeric encapsulant, as recited and claimed. The reference to Jen et al (US 2004/0266954) has been overcome since applicants have established prior reduction to practice. See the affidavit of 16 July 2007. As such, the claims are deemed to contain allowable subject matter. The reference to Buck (US 4,041,063), newly cited of interest, shows the conventionality of end-capping a cyanoacrylate with a diene in a Diels Alder

reaction, but does not teach or otherwise suggest the production of an encapsulant fluid, as herein claimed, by the same or a similar process. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claims 20-35.

This application is in condition for allowance except for the presence of claims 20-35 directed to an invention non-elected without traverse. Accordingly, claims 20-35 have been cancelled.
